These students have worked so hard and it paid off over the summer. As their advisor, I could not be more proud of their work ethic and perseverance to work into the summer break and have placements in Nationals!

All of them won their competition at the Middle Level State Leadership Conference, then in late June competed again at the Middle Level National Leadership Conference. The event was held virtually due to Covid, but should have also gotten to go to Anaheim, Calif., to the Conference and to compete.

- Ashton Miller and Lillian Samuels competed and placed 4th overall at Nationals in Critical Thinking Competition. This event is where they are given a situation and problem, and they get 15 minutes to create multiple solutions then they have to present that to the judges.
- Kelvin Orduna competed and placed 4th overall at Nationals in Multimedia and Website Development. This

event is where they have to create a full website on their own and focus on a certain topic that is given to them with different criteria.

- Makaya Ferguson and Carter Combs competed and placed 4th overall at Nationals in the Community Service Team Project event. The HMS FBLA Chapter's Community Service Project this year was called "Rays of Sunshine".

These two students lead other chapter members in creating this project and seeing it out. Then they had to create a presentation and present the project to judges. For the project, they started with cold calls and donations, ordering products, assembling gift bags and then delivery to both local nursing homes. We delivered 125 gifts/goodie bags to the residents.

- Mrs. Winters received an award this summer as well. During the annual Arkansas Business Education Association Conference, Winters was named Middle Level Teacher of the Year.

SCHOOL MENUS

HUNTSVILLE SCHOOLS INCLUDING ST. PAUL	KINGSTON SCHOOLS
<ul style="list-style-type: none">• Thursday, Oct. 7 BREAKFAST: Super bun, yogurt or cereal, elf grahams, pears, apple juice, and milk. State Sheriff's Association makes donation

Madison County Sheriff Rick Evans, second from left, presents a check from the Arkansas Sheriff's Association for Red Ribbon Week in the Huntsville School District. The donation was for \$1,890. Also shown are, from left, school resource officer Monica Blair, Evans, Cassie Leafgreen, Jennifer Eaton, Huntsville Intermediate School Principal Mike Cain, and school resource officer Lynn Whittle.

Saints improve St. Paul parking lots and streets around campus

St. Paul students Destinee Stark, Cathrine Pitts and Abbie Ritchie work hard painting the smaller fleur de lis patterns on the streets surrounding the St. Paul School campus.

By Jade Hill

Students in the environmental science class and select members of the senior class cooperated to beautify the parking lots at St. Paul School and make them safer by adding huge and smaller fleur de lis symbols, repainting handicapped parking space signs, and re-striping the parking spaces.

Environmental Science students Tristen Pearce, Dallas Smith, Weston, Theriault, Alesa Bailey, Samantha Burnett, Hughston Golightly, Cathrine Pitts, Abbie Ritchie, Jeremiah Robbins, Destinee Stark, Jesse Stephens and Memphis Yeakley were assisted by other students to get the project started. The rain kept the project from being completed, but plans are in the works to finish later.

"One of the most important lessons a student can learn in Environmental Science is that not all human impact is negative," said science teacher Darrell Trahan.
